

Mirage Theme

Inspired by the song poster of the lead single, *Mirage*

LianTze Lim

The full album *Shenself* now available on all major music platforms

2024/10/22

Introduction

- Behold the mechanical dove 🐦 flying through the air
- How might its eyes be lit 👁 that it appears lifelike
 1. Are digital dawns and dusks 🌄 more colourful? 🌃
 2. Are bionic lovers 😁 more loyal? 😊
- Push this one door open 🚪 and there are thousands more 🏠 🏠 🏠 🏠 🏠

☐ The ancient gaze from aeons ago

1. How might it discern if this moment is fantasy or real
 - 1.1 Is man-made talent true inherent wisdom?
 - 1.1.1 Do cloned bodies have souls?
 - 1.1.2 Forever questioning, but ever without a conclusion
2. Can it be real

☐ The Heavenward Staircase of Wisdom is ever endless

“*Can it be real
The world is a mirage*

«*Amidst barren hills of electronic fantasies
I search for oases of truth
Though as small as mayflies
I dare gaze at the galaxies*

Gosh I've no idea what I'm writing, do you?

Now solve $x = \frac{-b \pm \sqrt{b^2 - 4ac}}{2a}$. This should be easy, right?

Gosh I've no idea what I'm writing, do you?

$$x = \frac{-b \pm \sqrt{b^2 - 4ac}}{2a}, \quad \therefore \alpha \neq \Omega$$

Gosh I've no idea what I'm writing, do you?

$$x = \frac{-b \pm \sqrt{b^2 - 4ac}}{2a}, \quad \therefore \alpha \neq \Omega$$

□ Blocks blocks blocks 123 (cont.)

... Proof.

As everyone can clearly see, $1 + 1 = 2$. □

➤ Theorem

A wonderful thing is about to happen – it will eventually happen.

➤ Definition

A wonderful thing is about to happen – it *will* eventually happen.
